

Insulights

ELIMINATES MANUAL TESTING

FLASHING INSULATOR

Insulights work on:

Wire
Braided Wire
Electric Tape

Insulights attach to:

Steel Posts
T-Posts
Wooden Posts

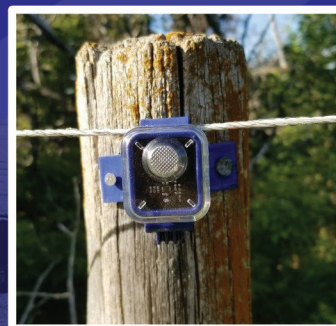

Enhances Livestock Safety:

Flashing LED light indicates working fence
Provides increased visibility up to $\frac{1}{2}$ mile
Deterrent to deer and wild animals

Recommended use:

Use one Insulight every $\frac{1}{4}$ mile to provide coverage for livestock confinement. Use in gardens as a deterrent to wild animals (deer, rabbits, racoons). Flash is visible from $\frac{1}{2}$ mile in the evening.
